MILIEU's Mixers

MILIEU hosted the official launch of the Catbird Collection with Ruth Gay at her showroom, Chateau Domingue and Atelier Domingue, in Houston. Creator of the upholstered seating collection, Cindy Smith, united eight designers, including herself, to design pieces such as dining chairs, chaise lounges, and sofas with fabric selections. With friends, family, and colleagues in tow the Catbird designers — Paul Bates, Emily Bourgeois, Jeremy Corkern, Susan Ferrier, Bobby McAlpine, Ken Pursley, Jane Schwab and Smith — presented the collection to the Houston design community. Chateau

Domingue was aglow with its own architectural and decorative antiques and housed the Catbird collection for the evening.

Ken Kehoe & Company honored the Richmond, Virginia-based McKinnon and Harris with a cocktail event in Houston. The estate, garden, and yacht furniture, for which McKinnon and Harris is known was on view in Kehoe's clients' gardens during the evening event. The owners of the private home welcomed guests to visit with William McKinnon Massie, co-founder of the outdoor line, and learn about the company's outdoor craftsmanship.
